HISTORIC NURSING AFFILIATE AGREEMENT BETWEEN SOUTHERN UNIVERSITY AT SHREVEPORT (SUSLA) AND GRAND CANYON UNIVERSITY

PICTURED (L TO R): MONIQUE SMITH, UNIVERSITY DEVELOPMENT COUNSELOR, GRAND CANYON UNIVERSITY, JASON ANTHONY, SR., UNIVERSITY DEVELOPMENT MANAGER, GRAND CANYON UNIVERSITY, DR. VLADIMIR A. APPEANING, INTERIM CHANCELLOR, SUSLA; DR. LONNIE MCCRAY, INTERIM VICE CHANCELLOR OF ACADEMIC AFFAIRS & WORKFORCE DEVELOPMENT, SUSLA; JOANN BROWN, DEAN OF ALLIED HEALTH & NURSING, SUSLA; TIFFANY VARNER, DIRECTOR OF NURSING, SUSLA

On Tuesday, September 20, 2022, officials from Grand Canyon University and Southern University at Shreveport (SUSLA) signed a concurrent enrollment pathway agreement between the respective nursing programs of both institutions that will allow students currently enrolled in SUSLA's Associate of Science in Nursing program to begin taking core courses online towards the Bachelor of Science in Nursing at GCU, and then towards the Master of Science in Nursing.

This RN to BSN and RN to MSN Bridge offers the option to seamlessly transfer credits from SUSLA to the nursing program at GCU for the completion of the degree. The program is designed for current students to get a step ahead in their goal to further their nursing education.

"This nursing affiliate agreement will open the doors of opportunity for SUSLA's student population," said Dr. Lonnie McCray, interim vice chancellor for academic affairs and workforce development. "Minority students account for 34% of individuals completing a BSN program, with only 11% of that total being African American. This program can and will help alleviate this achievement gap."

SUSLA's Interim Chancellor Vladimir A. Appeaning added, "The signing of this innovative Concurrent Enrollment Pathway agreement between Southern University at Shreveport and Grand Canyon University will provide a pathway for our nursing students to begin working on an advanced degree while earning their initial nursing degree." Dr. Appeaning believes the new program will also help alleviate the current shortage of registered nurses in the workforce, and eventually educators in the nursing education field.

TRIO STUDENT SUPPORT SERVICES: FIRST-GENERATION MENTORSHIP CLUB

TRIO STUDENT SUPPORT SERVICES FIRST-GENERATION MENTORSHIP CLUB

Our club gives faculty, staff, and alumni who were first-generation students the opportunity to connect with the university's incoming and returning first-generation students by serving as mentors. The mentorship will be a one-year commitment experience with first-generation students empowering them through their academic journey at SUSLA because:

- First-generation students utilize financial aid services more than continuing-generation students use.
- First-generation students utilize academic support services more than continuing-generation students.
- First-generation students use academic advising services more than continuing-generation students.

SUSLA'S TRIO STUDENT SUPPORT SERVICES HOSTS OPEN HOUSE EVENT OF THE UPDATED TUTORIAL LAB — “NACHO REGULAR TUESDAY”

On Tuesday, September 13th, 2022, SUSLA Student Support Service hosted an open house featuring “NACHO REGULAR TUESDAY.” This activity was designed to introduce to SUSLA a student-centered and student- friendly area on campus that is set aside for students to expand tutorial offering in the core academic areas. “Nacho Regular Tuesday” was held in the computer lab which is housed on the first floor of the NCR building room 101. During this event refreshments were served while visitors had the opportunity to socialize with other students and educators while touring the lab.

The tutorial lab focuses on a student-centered approach that focuses on encouraging students to become independent thinkers. University tutors not only help with challenging subject matter but help students develop stronger study habits. The center addresses the students’ needs while building social and emotional skills that will help create a culture where all students can succeed. Furthermore, the area allows tutors in major specific courses to meet with students minimum distractions and full computer access.

The lab will offer a welcoming, inclusive, and relaxed learning environment where students will feel comfortable asking questions and making mistakes. The lab provides student-oriented services designed to assist during the learning experience based on a community of life-long learning and communicating. For students to take control of their learning they need to be given the opportunity to make choices- when we make choices for them, there is an unspoken message we as educators do not believe they can make good choices for themselves. We teach to them to be trailblazers and not followers.
