AGENDA ITEM 5: INFORMATIONAL ITEM

A. Update on NCAA Certification for 2011, SUBR

An oral report was presented by Mr. Greg LaFleur, Director of Athletics at SUBR and Dr. Jacqueline Howard-Matthews, Associate Provost and Athletics Certification Liaison for SUBR.

The Committee was advised of a number of impediments to SUBR certification by the NCAA in the three major areas being reviewed: governance, academic integrity and gender equity.

A total of 40 concerns were submitted by the NCAA to SUBR. Many of these concerns related to gender equity and academic support for student-athletes.

According to the presenters, the Athletics Department lacks a full-time compliance officer whose responsibility would be to obtain and maintain a student data record for reporting purposes. The absence of this official resulted in the University’s inability to furnish the data requested by the NCAA in its certification review.

The NCAA concerns regarding gender equity and student welfare emanated from the University’s delay in providing getting a baseball facility for its female student athletes.

The Committee was given assurance that actions will be taken by the Administration to address these concerns including employing a full-time compliance officer and the construction of a women’s baseball facility.

The University’s report is due to the NCAA by December 17.

In closing, Dr. Howard-Matthews reported that the University is now developing a “Beyond 40” Strategy to ensure future compliance with NCAA standards.
The President assured the Committee that efforts would be initiated by the Administration to foster better communications between the University and the NCAA. The President was asked to keep the Board updated on the progress of the SUBR’s certification by the NCAA.
